

BYRNE

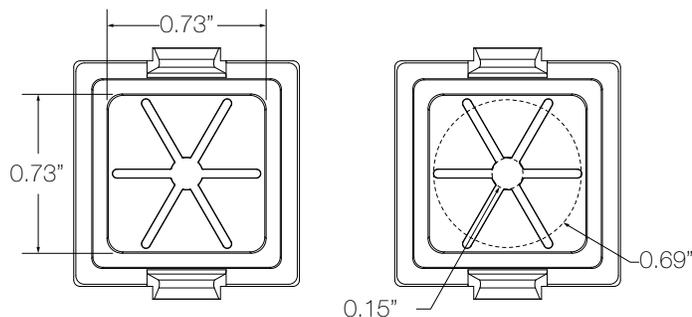

Retrofit Belay

OVERVIEW

Powerful spaces are all about flexibility. That's what makes Retrofit Belay a smart addition to any scalable accessory lineup. Easily installed in the field, Retrofit Belay allows a variety of Cat cables and connectors to be fed through some of Byrne's most popular power/data centers like Axil, Assemble and Ellora. Cables smaller than 0.68" simply pass through the opening and are held in place by a durable rubber grommet. So keep your options open and cord management a breeze with Retrofit Belay.

SPECIFICATIONS

CABLE USAGE
