LISTINGS

ETL LISTED
& UL RECOGNIZED

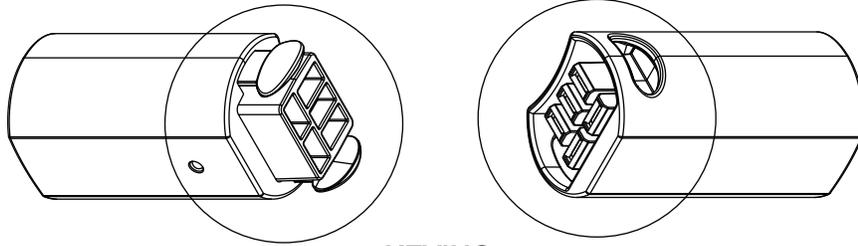

SMART INFEEED

Every Interlink iQ System starts with a smart infeed.

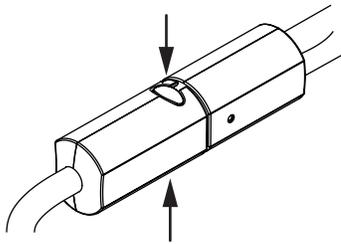

The control box is included with the infeed for an interlink iQ system. This is the rule follower that counts the number of connections.

AVAILABLE TO ORDER AS AN INTERLINK IQ SYSTEM

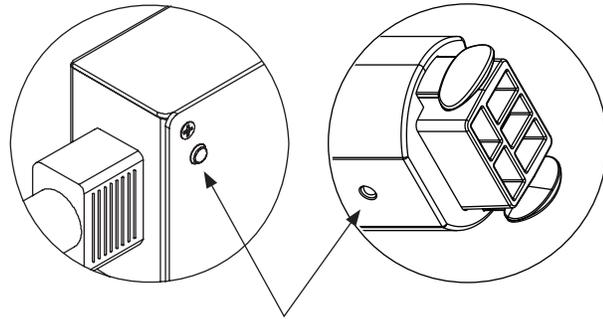

Assemble	Minitap
Axil	Mho
Burelé	Moiré
Dean	Nacre
Dot	Ohm
Ellora	Pepper
Glenbeigh	

KEYING

**SNAP TO ENGAGE OR
DEPRESS TO DISCONNECT**

INDICATOR LIGHT

NOTE: The Interlink iQ system monitors for the correct number of units. Once connected to power, the light on Interlink iQ control box will be green. If more than 8 Interlink iQ Power/Data or by pass units are plugged into the Interlink iQ control box, power will shut down and light will be red.
