Pattern

Pattern

Looking for a corded system, no installation required? Check. That can power up to 20 units? Check. With as many as eight outlets in each unit – and all the charging you want? Check. And if you're beginning to see a pattern here, you've come to the right product. Pattern is Byrne's new distribution powerhouse with a corded infeed that can split power in either direction, making it ideal for large conference tables, height adjustable desks, benching, lecture halls – wherever outlets are in high demand. And with a maximum length of 50 feet from plug in, this powerful Pattern can repeat across a whole lot of real estate. Reconfigurable, modular, with tons of Byrne accessory options and all the power you'll ever need – Pattern is the one-plug solution you really need to check out for yourself.
